

IN THE CLAIMS

Please amend the claims as follows:

1. (AMENDED) An ophthalmic lens element comprising:
an injection molded, polymeric ophthalmic lens having a concave surface and a convex surface, and
a laminate bonded to the injection molded, polymeric ophthalmic lens, the laminate comprising, in the following order:
 - a) a first resinous layer,
 - b) a functional layer selected from the group consisting of a light polarizing layer and a photochromic layer, and
 - c) a second resinous layer,the first resinous layer being bonded to the convex surface of the injection molded, polymeric ophthalmic lens.
2. (AMENDED) The ophthalmic element of claim 1 wherein said polymeric ophthalmic lens [comprises] consists essentially of a polycarbonate resin.
3. (AMENDED) The ophthalmic element of claim 1 wherein the first resinous layer is directly bonded by fusion to the polymeric ophthalmic lens.
4. (AMENDED) The ophthalmic element of claim 1 wherein the first resinous layer consists essentially of polycarbonate resin and is adhesively bonded to the polymeric ophthalmic lens.
5. (AMENDED) The ophthalmic element of claim 1 wherein the first resinous layer consists essentially of polycarbonate resin and is fused to the polymeric ophthalmic lens.

6. The ophthalmic element of claim 2 wherein the functional layer comprises a light polarizing layer.

7. The ophthalmic element of claim 2 wherein the functional layer comprises a photochromic layer.

8. The ophthalmic element of claim 4 wherein the functional layer comprises a light polarizing layer.

9. The ophthalmic element of claim 4 wherein the functional layer comprises a photochromic layer.

10. The ophthalmic element of claim 2 wherein the injection molded, polymeric ophthalmic lens has no ophthalmic prescription power.

 Please cancel claims 11-12, without prejudice.

13. The ophthalmic element of claim 7 wherein the injection molded, polymeric ophthalmic lens has no ophthalmic prescription power.

14. The ophthalmic element of claim 2 wherein the first resinous layer comprises a thermoplastic polymer.

15. The ophthalmic element of claim 6 wherein the first resinous layer comprises a thermoplastic polymer.

16. The ophthalmic element of claim 7 wherein the first resinous layer comprises a thermoplastic polymer.

 Please cancel claims 17-23, without prejudice.

24. The ophthalmic element of claim 1 wherein layer b) is an extruded layer.

25. The ophthalmic element of claim 1 wherein layers a), b) and c) are extruded layers.

26. The ophthalmic element of claim 4 wherein layer b) is an extruded layer.

27. The ophthalmic element of claim 4 wherein layers a), b) and c) are extruded layers.

28. The ophthalmic element of claim 8 wherein layer b) is an extruded layer.
